## **Central Battery Systems**

Beronworth produces a variety of Central Battery Systems manufactured to meet the specifications required by design engineers.

Our modular approach enables us to provide viable solutions to a wide variety of applications.

Standard systems are based on durations of 1 or 3 hours. For longer durations, we can accommodate in the design stage of the product.

There are three basic types of battery system and basic schematic diagrams of this range of products can be supplied upon request.

**24V, 48V & 110V systems**

**Capacity from 70AH**

**Choice of battery types:**

**W Maintenance free sealed**

**W lead-acid**

**W Wet lead-acid**

**W Maintenance free sealed**

**W nickel-cadmium**

**W Wet nickel-cadmium**

**W Choice of enclosures**

**W Floor Standing**

**W Wall Mounting**
